Countertop Estimate & Order Process

Step 1: Get an Estimate

You may obtain a countertop estimate for free by providing us with rough measurements. Please read the *How To Measure* worksheet for measuring instructions. If you are not able to provide measurements for the estimate, there is a \$50 non-refundable fee for us to measure for you.

Information Needed For an Estimate:

1. Style of Top (Edge) (See next page for laminate edge styles)
2. Do you want a Backsplash on your countertop?
3. Color (if known): Color No. _____ - ____ and Color Name _____
4. Approximate length of countertop(s), depth of countertop, length of bar tops, depth of bar tops, and overhang expected on bars. (see *How To Measure* worksheet)
5. Location of end caps, end splashes, and raw edges.
6. Will you need a sink cut-out, drop-in stove cut-out, radiused or clipped corners, miters, or any notches? (Please mark these on your drawing) We will also need to know the size of the cut-out of your sink. Please let us know of any other special cuts or add-ons that will require additional labor or material.
7. Will you need us to measure, make a template, or install countertops? We will need to know the address and times available. Do you need us to tear out and remove existing countertop?

We do not do any plumbing or electrical work*

Please give us your *Countertop Estimate & Order Form*, along with your kitchen layout. You may either drop it off to us, fax it to 859-986-3129, or email it to quotes@breatopshop.com.

Step 2- Placing an Order

1. Approve the estimate and pay a deposit

After you approve the rough estimate, a deposit is required to place an order. We must have half down on the day of the order and the balance due in full when the order is complete.

2. Schedule to measure or provide final measurements

Once the deposit is paid, we can schedule a time to measure or you can provide us with your own measurements. When we have accurate measurements, your initial estimate may be revised to accommodate any changes, and we will contact you with an estimated completion date.

3. Countertop is ready for pick-up or installation

When your countertop is finished, we will call you to pick it up or schedule an installation date.

**Please remember, we do not do any plumbing or electrical work. You will have to set up a plumber to unhook any plumbing and they will have to return after installation to hook it back up.

4. Payment Arrangements

Balance is due when the countertop is picked up or installed. We accept cash, checks, money orders, Visa, MasterCard, AMEX, or Discover cards.

*****There is a 3% up-charge for using a credit card.

Please answer the following questions:

Purpose of estimate or placing an order:

____ Replacing old countertops

____ Replacing cabinets and countertops

____ New Construction

If you are buying new cabinets, do you know the approximate date they will be installed?

Berea Top Shop, Inc. will be: (Please mark all that apply)

____ Measuring or Making a Template for countertops

____ Installing Countertops

____ Tearing out and removing existing countertops

____ Delivering but not installing

____ I will be picking them up

If you need us to measure, template, install or deliver, is there a time that is better for you? _____

*****We do not do any plumbing or electrical work *****

If you want us to cut out the hole for the sink, we will need to know the type of sink you have and the cut-out size, if not a standard 33X22 stainless steel double-bowl sink. When you purchase a new sink, there will be a template that will give you the cut-out sizes.

My sink cut-out size is: _____ (if applicable).
